About Accessa

Detailed description

Founded in 2004, Accessa is an IT technology company that emerged as a response to the growing need of Western European companies for professional IT services. The group has delivery and competence centres in Romania, a country proven to be an ideal place for IT services due to its technical universities, its proximity, and its service-minded culture. 700+ IT professionals organized into 20+ competence centres, all focused on delivering innovation in a responsible and open manner.

With a strong focus on the DACH region and customer-intimacy, Accessa has several offices in Frankfurt, Munich, and Zurich.

As a value-based, people-centred technology company, Accessa's people are focused on building strong partnerships with leaders from several strategic industries such as Manufacturing, Retail and Consumer Goods, as well as Banking and Insurance.

Accessa provides consulting, UI/UX, architecture, development, testing and 24x7 managed services for the full Microsoft, Amazon, Google, SAP products and services stack. Accessa's expertise includes gold partnerships with Microsoft and UiPath. The organisation is SAP PartnerEdge Service Silver certified, a Google Cloud Partner, and it associates with top providers of platforms such as Citrix, VMware, and Nintex. Accessa's teams of experts are also skilled in AWS, IBM, and TIBCO.

As a company, Accessa is ISO 9001:2015 and ISO 27001:2013 certified.

Project delivery teams are tailored to the customers' needs on a case-by-case basis. They include professionals such as consultants, project managers and architects on-site at the customers' offices interfacing with delivery teams from Cluj-Napoca or Oradea.

Central to Accessa's approach is to deliver tailored services and to do things in a responsible, open way. This is why in Accessa companies find a designed a warm approach to cold tech.

This is why, at Accessa, „tech meets nice“.

It's not just the technology, the solution. It's always the engaging relationship, too. With Accessa, your digital evolution is in very good hands.

Accessa. Digital evolution, good company.

“Good” in all its meanings.
